

INSPECTION & QA SUPPORT DIVISION

PDI • DIMENSIONAL & VISUAL INSPECTION • DRAWING / BOM REVIEW • MATERIAL DOCUMENTS • VENDOR QA • FAI • NCR / CAPA

Verify. Document. Report. Improve.

1. ABOUT CRECER GRANDE

Creceer Grande is an engineering and industrial services venture focused on helping manufacturing and engineering businesses improve machine uptime, source industrial components, manage engineering work and strengthen business documentation. We combine engineering capability, an on-demand technical network and practical manufacturing support to provide flexible solutions without the overhead of a large permanent organisation.

2. ABOUT THE DIVISION

Creceer Grande - Inspection & QA Support Division provides technical inspection, pre-dispatch verification, documentation review and vendor-quality support for industrial components, fabricated items and engineering supplies. The scope is defined against the customer drawing, specification, purchase order, inspection checklist or agreed acceptance criteria.

3. OUR CAPABILITIES

Pre-Dispatch Inspection (PDI)

Technical verification before shipment

- Quantity and item identification
- Visual condition and workmanship
- Key dimensions
- Drawing / revision verification
- Part marking and traceability
- Packing / labelling review
- Certificate / document availability
- Photographic evidence

Dimensional & Visual Inspection

Measurements and workmanship against the agreed basis

- Overall dimensions, hole / slot positions and thickness / diameter
- Fits, interface dimensions and selected tolerances
- Gauge / fixture checks where specified
- Sampling or 100% checks as agreed
- Surface defects, burrs, weld appearance and finish condition
- Damage, marking, cleanliness and packing condition

Drawing, BOM & Document Verification

Confirm the technical and quality-document basis

- Drawing number and revision
- Material specification
- BOM / part-list consistency
- PO and special process requirements
- Material Test Certificate / CoC review
- Calibration evidence and process / test reports
- Heat / batch / lot traceability where required

Vendor Inspection & Quality Support

Planned source, in-process and final checks

- Source / incoming verification
- In-process inspection points
- Final inspection
- Vendor follow-up on open issues
- Packing / dispatch release recommendation
- Inspection-status tracking
- Photographic and measurement records

First Article / Initial Sample Support

Catch interpretation and setup issues before batch production

- Drawing-revision confirmation
- Critical dimension review
- Material / certificate confirmation
- Visual workmanship
- Assembly / interface verification where possible
- Deviation list and customer-approval pack support

NCR, Root Cause & CAPA Support

Document and follow up nonconformities

- NCR description and evidence
- Segregation / disposition tracking
- Containment actions
- 5-Why / cause-analysis facilitation
- Corrective-action planning
- Effectiveness follow-up
- Repeat-defect trend review

Why FAI Helps

Establish a baseline before repeat supply

- Catch errors before batch production
- Confirm drawing interpretation
- Validate process / tooling setup
- Reduce repeat rejection risk
- Create a reference for repeat production

4. INSPECTION REPORT STRUCTURE

- Customer / supplier / PO reference
- Item and drawing details
- Inspection date / location / sample size
- Instrument identification and measurement results
- Visual observations and document-review status
- Photographs and deviations
- Overall status / recommendation and report revision

5. MEASUREMENT & CALIBRATION CONTROL

- Instrument type and calibration status should suit the required tolerance
- Sampling, MSA, gauge R&R; or laboratory testing are only included when separately scoped and available

6. INDEPENDENCE & ACCREDITATION POSITION

- Crecer Grande can align its practices with competence, impartiality and consistency principles as the capability develops
- Crecer Grande does not currently represent itself as an ISO/IEC 17020-accredited inspection body or a NABL-accredited third-party inspection agency
- Unless separately contracted, work is customer-defined technical inspection / QA support rather than an accredited conformity-assessment certificate

7. EVIDENCE PRINCIPLE

- Reports document the checks actually performed within scope
- Technical conclusions may be revised when new evidence emerges
- Customer / supplier retains disposition authority unless contractually delegated

9. WHAT YOU CAN SEND US

Inspection Basis

Purchase order / inspection call, drawing and revision, technical specification.
BOM / Quantity

Provide quantity, item list and required sample size.
Acceptance Criteria

Share applicable criteria, witness points and hold points.
Vendor Details

Vendor address, contact and planned readiness date.
Dispatch Requirements

Packing / dispatch requirement and required report format.
Customer Contact

Representative details for coordination and approval.

10. WHY CRECER GRANDE

- Inspection scope tied to customer drawings, PO and agreed acceptance criteria
- Dimensional, visual, document and vendor-quality support under one coordination point
- Structured reporting with photographs and measurement evidence
- Clear accreditation and authority boundaries

11. OUR VALUE PROPOSITION

VERIFY. DOCUMENT. REPORT. IMPROVE.

Crecer Grande can support PDI, dimensional and visual inspection, document verification, FAI, NCR/CAPA and vendor-quality activities with clear scope and structured reporting.
